

MAGNET SCHOOLS of BREVARD

Attracting the Best in Kids

EMPOWER

"I'm like Einstein, I learn best with hands-on activities. This makes learning math a lot easier and even fun!"

IMAGINE

"Our performing arts program is so creative — I found that I am a great dancer. And learning the keyboard activates my whole brain, especially the parts that process math."

IMMERSE

"When I'm in here inventing, time just melts away. Best of all, we take our designs and make them real!"

IMPACT

"Why memorize from textbooks? I learn from my world... the people, places and things in real life!"

Cultures around the world

ZOO SCHOOL

KOI POND

MAGNET SCHOOLS of BREVARD

"What interests me may be very different from what interests you — find the magnet program that's a good fit for YOU and how YOU learn!"

Attracting the Best in Kids

Just as no two children are alike, neither are their learning styles. Brevard County Magnet Schools provide hands on learning experiences and empower children to reach their potential. Students are free to explore their interests, discover their talents and awaken their entire brains.

Brevard County Magnet Schools offer an integrated curriculum of science, math, technology, performing arts, the fine arts and world cultures. This helps students develop the thinking skills necessary to adapt to a changing world. There are many forms of intelligence, and our goal is to help students discover what gets them excited about learning.

Gardendale Elementary Magnet School (GEMS) of Fine Arts, Performing Arts, Math/Science & Micro-Society

We all have a dream of who we want to be. At Gardendale Elementary Magnet, explore what interests you today to prepare for tomorrow. As a National Blue Ribbon School of Excellence and a Florida "A+" school, students choose from four multi-disciplinary academic tracks:

- The School of Arts and Cultures cultivates "citizens of the world".
- The School of Microsociety develops civic leaders and entrepreneurs.
- The School of Math and Science inspires young scientists with hands-on experiments.
- The School of Performing Arts encourages individual expression and self-discovery through dance, drama and music.

State-of-the-art computer, science and technology labs, a TV production studio, keyboard lab, and outdoor learning lab are just some of the innovative tools for hands-on learning.

301 Grove Boulevard, Merritt Island, FL 32953 • Tel 321-452-1411

Endeavour Elementary Magnet School of Science & Integrated Technology

From oceans of the world to stars in the galaxy, students at Endeavour Elementary Magnet, study math, science and technology in real world terms. Whether it's caring for a classroom animal or tending the school garden, you'll learn by interacting, imagining and problem solving in a small class setting.

Our state-of-the-art math, science, and technology labs encourage discovery while our keyboard and SMILE labs stimulate whole brain learning. Students can immerse themselves in the animal kingdom through our partnership with the Brevard County Zoo.

905 Pineda Street, Cocoa, FL 32922 • Tel 321-633-3545

Cambridge Elementary Magnet School of Arts & Science

An adventure in learning begins behind the TV camera as you videotape the morning announcements. Next, make a trip to our weather station to measure the morning's precipitation then build and program a Lego Robot. After creating an original music composition on the computer, you're standing in front of an art easel mixing colors to express the main idea of the story you read earlier. By day's end, you're off to sing before dignitaries with the chorus.

At Cambridge Elementary Magnet School of Arts and Science, learning is anything but routine. Here, scientific discovery is made every day using arts integration to motivate and challenge every student. Cambridge: Where Science is an Art!

2000 Cambridge Drive, Cocoa, FL 32922 • Tel 321-633-3550

Golfview Elementary Magnet School of Math/Science & Technology

Some of the world's greatest minds used math and science to satisfy their curiosities and inspire their imaginations. At Golfview Elementary, explore the world with the same hunger for knowledge through hands-on activities in math, science and technology.

Our responsive educators encourage emotional and academic development while students learn life skills for future success. These skills include critical thinking, experimentation, decision-making and teamwork. The world is full of questions — at Golfview you'll explore the answers.

1530 South Fiske Boulevard, Rockledge, FL 32955 • Tel 321-633-3570

McNair Middle Magnet School of Performing Arts, Gifted/Accelerated & Science

At McNair Magnet School, a Florida "A" school, making the grade has a lot to do with real life. That's because learning is directly linked to life skills. As a student, you're free to be an independent thinker and creative problem solver while learning to manage your time and priorities — skills that foster future success.

With math, science, social studies and language arts at the core of our curriculum, you can focus your interests in one of our four magnets. Customize your middle school experience with elective classes, Spanish, Physical Education and Family and Consumer Sciences.

#1 Challenger Drive, Rockledge, FL 32955 • Tel 321-633-3630
